

AGN. NO. 61-A

MOTION BY SUPERVISOR GLORIA MOLINA

April 12, 2005

Jim Lott of the Hospital Association of Southern California presented three recommendations from other hospital leaders for getting King/Drew Medical Center back on track. These ideas to require attending physicians to be present for all invasive procedures, bring in hospitalist or intensivist physicians to provide ICU care, and have independent nurses walk the hospital to ensure nursing staff are complying with community standards of care provide a common sense approach to making improvements in the delivery of care at that hospital.

I THEREFORE MOVE THAT the Board of Supervisors instruct the Director of Health Services to report next week on the plan to implement these recommendations within 48 hours of approval of the plan by the Board of Supervisors.
